Name of Institution: North Carolina A&T State University

Institution/Program Type: Alternative, IHE-based

Academic Year: 2015-16

State: North Carolina

Address: College of Education

1601 East Market Street

Greensboro, NC, 27411

Contact Name: Dr. Anthony Graham

Phone: 336-334-7757

Email: agraham@ncat.edu

Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education? (<http://www2.ed.gov/about/offices/list/oii/tqp/index.html>)

No

If yes, provide the following:

Award year:

Grantee name:

Project name:

Grant number:

List partner districts/LEAs:

List other partners:

Project Type:

Indicate when students are formally admitted into your initial teacher certification program:

Other MAT/PBS First Semester

Does your initial teacher certification program conditionally admit students?

No

Provide a link to your website where additional information about admissions requirements can be found:

<http://www.ncat.edu/ced/cepp/Admission.html>

Please provide any additional comments about or exceptions to the admissions information provided above:

The current requirements are:

1. Purchase and create a Taskstream account
2. Complete Disposition Survey via Taskstream
3. Complete Comprehensive Teacher Education Profile via Taskstream
4. Minimum overall GPA of 2.8
5. Complete Notification and Acknowledgment of Criminal Background form
6. Complete Interview

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2015-16:	25
Unduplicated number of males enrolled in 2015-16:	11
Unduplicated number of females enrolled in 2015-16:	14

2015-16	Number enrolled
<i>Ethnicity</i>	
Hispanic/Latino of any race:	0
<i>Race</i>	
American Indian or Alaska Native:	0
Asian:	0
Black or African American:	13
Native Hawaiian or Other Pacific Islander:	0
White:	11
Two or more races:	0

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (S205(a)(1)(A)(ii), S206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2015-16

Did your program prepare teachers in mathematics in 2015-16?

No

How many prospective teachers did your program plan to add in mathematics in 2015-16?

Did your program meet the goal for prospective teachers set in mathematics in 2015-16?

NA

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Academic year 2016-17

Is your program preparing teachers in mathematics in 2016-17?

No

How many prospective teachers did your program plan to add in mathematics in 2016-17?

Provide any additional comments, exceptions and explanations below:

Academic year 2017-18

Will your program prepare teachers in mathematics in 2017-18?

Yes

How many prospective teachers does your program plan to add in mathematics in 2017-18?

1

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Instruction of Limited English Proficient Students

AY 2015-16

Program Data Collection

State Guidance	Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))
Choose Report Card	
Welcome	
Instructions	
Institution Information	
Section I.a Program Information	Information about teacher shortage areas can be found at http://www2.ed.gov/about/offices/list/ope/pol/tsa.html .
Section I.b Admissions	Please provide the information below about your program's goals to increase the number of prospective teachers in instruction of limited English proficient students in each of three academic years.
Section I.b Undergraduate Requirements	
Section I.b Postgraduate Requirements	Academic year 2015-16
Section I.c Enrollment	Did your program prepare teachers in instruction of limited English proficient students in 2015-16?
Section I.d Supervised Clinical Experience	No
Section I.e Teachers Prepared by Subject Area	How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2015-16?
Section I.e Teachers Prepared by Academic Major	
Section I.f Program Completers	Did your program meet the goal for prospective teachers set in instruction of limited English proficient students in 2015-16?
Section II Annual Goals - Mathematics	Data not reported
Section II Annual Goals - Science	
Section II Annual Goals - Special Education	
Section II Annual Goals - Instruction of Limited English Proficient Students	Description of strategies used to achieve goal, if applicable:
Section II Assurances	Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
Section III Assessment Pass Rates	Provide any additional comments, exceptions and explanations below:
Section III Summary Pass Rates	Academic year 2016-17
Section IV Low-Performing	Is your program preparing teachers in instruction of limited English proficient students in 2016-17?
Section V Use of Technology	No
Section VI Teacher Training	How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2016-17?
Section VII Contextual Information	Provide any additional comments, exceptions and explanations below:
Section VIII Report Certification	Academic year 2017-18
Print Report	Will your program prepare teachers in instruction of limited English proficient students in 2017-18?
Print Prior Report	No
Account Information	How many prospective teachers does your program plan to add in instruction of limited English proficient students in 2017-18?

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206 (b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

NC A&T State University partners with several school districts where many of our graduates secure employment. Representatives from these LEAs serve on the Council for Educator Preparation Programs and College of Education Advisory Board as well as program-specific advisory councils. Additionally, annual focus groups are conducted with clinical educators (P-12 teachers) and administrators to identify strengths and weaknesses of our preparatory program. These data are used to improve our quality of educator preparation programs.

All general education candidates are required to take coursework in ethics of teaching, culturally relevant pedagogy, and differentiated instruction among other courses that focus on the importance of understanding the learner, the learner's context, the school's context, and ways to alter instruction, the environment, and content information to meet the needs of diverse learners. The preparatory model is driven by an equity framework where fairness and responsiveness to individual learners is the primary focus.

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- **integrate technology effectively into curricula and instruction**
Yes
- **use technology effectively to collect data to improve teaching and learning**
Yes
- **use technology effectively to manage data to improve teaching and learning**
Yes
- **use technology effectively to analyze data to improve teaching and learning**
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The overarching themes of the Conceptual Framework for all educator programs in the NC A&T College of Education reflect a commitment to diversity, assessment, reflection, and technology (DART). This framework requires teacher candidates to use technology to gather, manage, and reach logical conclusions about data in the context of the subject area as a means to bridge the social, cultural, economic, and cognitive gaps between learners. MAT students who are lateral entry enter the public school having learned what attributes of technology promote effective learning in the classroom. In addition, they are well equipped to use technology to examine content more critically, solve problems, and establish reliability.

Key to the use and application of technology to collect, manage, and analyze data and effectively integrate it into the classroom is the College of Education's model elementary classroom. This classroom is designed for MAT Lateral Entry students to practice and teach in a classroom simulation space that mirrors a classroom in a traditional classroom setting. Key to MAT methods training and further use by MAT teachers of record is the technology available for use in the model classroom. Candidates have access to a variety of instructional technologies including, (1) a small computer lab with the latest education software, (2) an interactive smart board with a wide variety of educational resources included, (3) a class set of iPad minis that integrate with the interactive smart board, and (4) ELMO clickers that allow elementary students to poll interactively and simultaneously for immediate feedback. In order to provide feedback from peers and other observers and generate discussion, the model classroom is equipped with an interactive camera system that allows observers to view the lesson conducted in the model classroom remotely via a television. MAT lateral entry teachers of record can bring their elementary students to the model classroom to take advantage of the latest technology, software, and other educational materials. Moving forward, faculty in the educator preparation program will integrate the use of candidate-directed video of their instruction and analysis of their video using technology like Go React where faculty can provide feedback to candidates at select points of their recordings. Additionally, faculty will integrate more technologically based assessment solutions into the candidate preparation model so candidates develop their ability to assess P-12 student learning via technology.

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All educator preparation candidates participate in immersion experiences in public school contexts where they must accommodate students with special needs. These experiences which occur prior to the semester-long clinical practice experience total 150 hours. During these pre-clinical practice experiences, candidates also engage in coursework where they learn more about best practices content and pedagogical strategies to engage diverse learners. The educator preparation program requires candidates to produce electronic evidences that demonstrate their awareness of their context and their learners as well as their ability to plan instruction and layout the learning environment to engage all learners (i.e., Electronic Evidence 3 and Electronic Evidence 5). These two evidences are comprehensive and multi-faceted, requiring multiple layers of understanding, awareness, and skill to respond to learner needs.

Does your program prepare special education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Candidates at North Carolina A&T State University construct a "Differentiated Instruction Teacher Work Sample" (DITWS) Electronic Evidence as part of their general professional education core coursework. The DITWS requires candidates to address the varying cognitive levels, special needs, and performance abilities of learners within their classrooms through thoughtful and strategic instructional planning. Candidates must provide credible evidence of their ability to facilitate learning by developing significant, challenging, and appropriate learning goals consistent with their program area Common Core or Essential Standards. Using pre-assessment data, candidates must design and implement a unit plan that utilizes differentiated lesson plans responding to candidate performance data. Throughout the unit, candidates must use multiple formative assessments that demonstrate student learning, and they must post-assess student understanding and skills at the conclusion of the unit. Candidates analyze this data to determine the extent of student growth throughout the unit; and then they must reflect on their instruction to articulate ways that they would improve their instructional practice in the future.

the future.

Candidates enrolled in the MAT Special Education program also construct a "Special Education Model Demonstration Capstone Project" Electronic Evidence. This evidence requires candidates to demonstrate proficiency as an effective instructional leader and exert a positive influence on their teacher colleagues. Candidates articulate a project rationale, explore existing scholarly research to substantiate the proposed approach or methodology that they will use, engage in an analysis of P-12 student prior knowledge utilizing formative and summative assessment data, and deliver responsive instruction using research-based strategies. Based on their work, candidates engage in a presentation by sharing their research findings with their colleagues. Beginning with the 2017-2018 academic year, special education candidates will complete and submit education Teacher Performance Assessments.

Please use this space to provide any additional information that describes your teacher preparation program (s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

COLLEGE OF EDUCATION (CEd) CONCEPTUAL FRAMEWORK: The College of Education has selected as its program theme "The Professional Educator: Catalyst for Learning." From the theme, a conceptual framework has been developed which includes a rationale and organizing principles that guide the development of the curriculum for professional education including the categorization of knowledge. The Unit's vision, mission, and dispositions emerged directly from the university's mission. Both the Unit and University strive to transmit a cultural experience for our candidates to be transformed into catalysts for learning. Candidates learn to create their own learning from the experiences of the faculty, curricula and field experience opportunities, and other education leaders. Thus, because candidates create their learning outcomes from the interaction with their faculty and curricula, candidates are philosophically constructivists. While the constructivist view is primarily the philosophy by which education programs are structured, content specialists and school personnel programs might have other philosophical basis. The conceptual framework is sufficiently broad as an umbrella to embrace all of the programs. The conceptual framework is the guiding force for program development and performance assessment. The outcome of the framework is the development of unit standards for all programs, which are Diversity, Assessment, Reflection, and Technology (DART).
