Name of Institution: North Carolina A&T State University
Institution/Program Type: Traditional
Academic Year: 2014-15
State: North Carolina

Address: School of Education
 1601 East Market Street
 Greensboro, NC, 27411

Contact Name: Dr. Anthony Graham
Phone: 336-334-7757
Email: agraham@ncat.edu

Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education? (<http://www2.ed.gov/about/offices/list/oii/tqp/index.html>)

No

If yes, provide the following:

- Award year:
- Grantee name:
- Project name:
- Grant number:
- List partner districts/LEAs:
- List other partners:
- Project Type:

- Account Information
- Log Out

Indicate when students are formally admitted into your initial teacher certification program:
Sophomore year

Does your initial teacher certification program conditionally admit students?
No

Provide a link to your website where additional information about admissions requirements can be found:
<http://www.ncat.edu/academics/schools-colleges1/soe/teacher-education/Admission.html>

Please provide any additional comments about or exceptions to the admissions information provided above:

The requirement for admission to our teacher education programs changed Fall 2014 from 10 points to 7 points.
Requirements are:

1. Purchase and create a Taskstream account
2. Complete disposition survey via Taskstream
3. Minimum GPA of 2.8
4. Complete section 1A Comprehensive Teacher Education Profile via Taskstream
5. Take and pass Praxis Core or SAT/ACT
6. Complete notification and acknowledgement of Criminal Background form
7. Complete interview

Please provide the following information about your teacher preparation program's entry and exit requirements. (S205(a)(1)(C)(i))

Are there initial teacher certification programs at the undergraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Undergraduate level.

Element	Required for Entry	Required for Exit
Transcript	No	No
Fingerprint check	No	No
Background check	No	No
Minimum number of courses/credits/semester hours completed	Yes	Yes
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	Yes	Yes
Minimum GPA in professional education coursework	Yes	Yes
Minimum ACT score	Yes	No
Minimum SAT score	Yes	No
Minimum basic skills test score	Yes	No
Subject area/academic content test or other subject matter verification	No	Yes
Recommendation(s)	No	No
Essay or personal statement	No	No
Interview	Yes	Yes
Other Dispositions Survey	Yes	Yes

What is the minimum GPA required for admission into the program?

2.8

What was the median GPA of individuals accepted into the program in academic year 2014-15

3.27

What is the minimum GPA required for completing the program?

2.8

What was the median GPA of individuals completing the program in academic year 2014-15

3.41

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2014-15:	104
Unduplicated number of males enrolled in 2014-15:	17
Unduplicated number of females enrolled in 2014-15:	87

2014-15	Number enrolled
<i>Ethnicity</i>	
Hispanic/Latino of any race:	1
<i>Race</i>	
American Indian or Alaska Native:	0
Asian:	0
Black or African American:	84
Native Hawaiian or Other Pacific Islander:	0
White:	16
Two or more races:	1

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at
<http://www2.ed.gov/about/offices/list/oep/pol/tsa.html>

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2014-15

Did your program prepare teachers in science in 2014-15?

Yes

How many prospective teachers did your program plan to add in science in 2014-15?

0

Did your program meet the goal for prospective teachers set in science in 2014-15?

Yes

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The program will implement two initiatives that should increase the number of science teachers produced: (1) an NSF grant-funded project to pay tuition, fees, and housing for STEM majors during their junior and senior year and (2) the implementation of an academic minor in STEM that will allow professional majors to concurrently attain a degree in their academic discipline and teaching certification in the subject area.

Provide any additional comments, exceptions and explanations below:

Although we did not plan to prepare any prospective science teachers in 2014-15, we actually did prepare 2 biology teachers and 1 chemistry teacher in 2014-2015.

The interim education dean will work with the provost, chancellor, and other stakeholders to align teacher education programs on our campus. One of the chief goals will be recruitment and retention of science teachers.

Academic year 2015-16

Is your program preparing teachers in science in 2015-16?

No

How many prospective teachers did your program plan to add in science in 2015-16?

Provide any additional comments, exceptions and explanations below:

Academic year 2016-17

Will your program prepare teachers in science in 2016-17?

Yes

How many prospective teachers does your program plan to add in science in 2016-17?

1

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

Academic year 2014-15

Did your program prepare teachers in special education in 2014-15?

Yes

How many prospective teachers did your program plan to add in special education in 2014-15?

5

Did your program meet the goal for prospective teachers set in special education in 2014-15?

No

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Faculty within the School of Education have secured two extramurally funded grants from the United States Department of Education Office of Special Education Programs totaling approximately \$2.3 million. These funds will support undergraduate and graduate candidates with the attainment of their initial teaching license in Special Education. Over a five-year period, we anticipate the preparation of 40 licensed special education teachers as a result of these efforts.

Provide any additional comments, exceptions and explanations below:

Academic year 2015-16

Is your program preparing teachers in special education in 2015-16?

Yes

How many prospective teachers did your program plan to add in special education in 2015-16?

5

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206 (b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.
Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.
Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

NC A&T State University partners with several school districts in which many of our graduates find employment. Representatives from these LEAs serve on the Teacher Education Council and School of Education Advisory Board, as well as program specific advisory boards. Additionally, annual focus groups are held with cooperating teachers to identify strengths and weaknesses of the program. This data is used to improve our quality of teacher education programs.

Undergraduate elementary education candidates have the option of receiving special education licensure as an add-on. All general education teachers are required to take at least one course in differentiated instruction; this includes specific information about students with disabilities. Additionally, as they are taught in the core areas, general education candidates are taught strategies for working with students with special needs.

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section IV Low-Performing

AY 2014-15

This is a United States Department of Education computer system.

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- **integrate technology effectively into curricula and instruction**
Yes
- **use technology effectively to collect data to improve teaching and learning**
Yes
- **use technology effectively to manage data to improve teaching and learning**
Yes
- **use technology effectively to analyze data to improve teaching and learning**
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The overarching themes of the Conceptual Framework for all educator programs in the NC A&T School of Education reflect a commitment to diversity, assessment, reflection, and technology (DART). This framework requires teacher candidates to use technology to gather, manage, and reach logical conclusions about data in the context of the subject area as a means to bridge the social, cultural, economic, and cognitive gaps between learners. Teacher candidates in our undergraduate and graduate programs learn what attributes of technology promote effective learning in the classroom. Teacher candidates in our undergraduate and graduate programs also learn to use technology to examine content more critically, solve problems, and establish reliability.

Teacher candidates are instructed in technology throughout their curricula beginning their Freshman year. They initially learn basic technology use, and to integrate it as they further develop their practice. They are required to identify resources that can be used to assist in their instruction, many of which are technological in nature.

Key to the use and application of technology to collect, manage, and analyze data and effectively integrate it into the classroom is the School of Education's model elementary classroom. This classroom is designed for teacher candidates in our undergraduate and graduate programs to practice teaching in a classroom simulation space that mirrors a classroom in a traditional classroom setting. All methods courses at both the graduate and undergraduate level are held in the model classroom. Key to candidate interaction with technology during instruction is the technology available for use in the model classroom. Candidates have access to a variety of instructional technologies including, (1) a small computer lab with the latest education software, (2) an interactive smart board with a wide variety of educational resources included, (3) a class set of ipad minis that integrate with the interactive smart board, (4) ELMO clickers that allow elementary students to poll interactively and simultaneously for immediate feedback, and (5) a document camera for use in displaying teacher-directed material. In order to provide feedback from peers and other observers and generate discussion, the model classroom is equipped with an interactive camera system that allows observers to view the lesson conducted in the model classroom remotely via a television.

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All general education candidates receive training to facilitate learning for special needs populations. They are required to take at least one course in special education that provides a survey of working with special needs populations, including participating as a team member on IEP teams. Additionally, they work with diverse learners in their field experiences. In the courses, Culturally Relevant Pedagogy and Differentiated Instruction, preservice general education teachers are prepared to provide instruction to limited English proficient students and children from low-income families.

Does your program prepare special education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
Yes

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Candidates at North Carolina A&T State University construct a "Differentiated Instruction Teacher Work Sample" (DITWS) Electronic Evidence as part of their general professional education core coursework. The DITWS requires candidates to address the varying cognitive levels, special needs, and performance abilities of learners within their classrooms through thoughtful and strategic instructional planning. Candidates must provide credible evidence of their ability to facilitate learning by developing significant, challenging, and appropriate learning goals consistent with their program area Common Core or Essential Standards. Using pre-assessment data, candidates must design and implement a unit plan that utilizes differentiated lesson plans responding to candidate performance data. Throughout the unit, candidates must use multiple formative assessments that demonstrate student learning, and they must post-assess student understanding and skills at the conclusion of the unit. Candidates analyze this data to determine the extent of student growth throughout the unit; and then they must reflect on their instruction to articulate ways that they would improve their instructional practice in the future.

Candidates enrolled in the MAT Special Education program also construct a "Special Education Model Demonstration Capstone Project" Electronic Evidence. This evidence requires candidates to demonstrate proficiency as an effective instructional leader and exert a positive influence on their teacher colleagues. Candidates articulate a project rationale, explore existing scholarly research to substantiate the proposed approach or methodology that they will use, engage in an analysis of P-12 student prior knowledge utilizing formative and summative assessment data, and deliver responsive instruction using research-based strategies. Based on their work, candidates engage in a presentation by sharing their research findings with their colleagues.

Please use this space to provide any additional information that describes your teacher preparation program (s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

SCHOOL OF EDUCATION (SOE) CONCEPTUAL FRAMEWORK: The School of Education has selected as its program theme "The Professional Educator: Catalyst for Learning." From the theme, a conceptual framework has been developed which includes a rationale and organizing principles that guide the development of the curriculum for professional education including the categorization of knowledge. The Unit's vision, mission, and dispositions emerged directly from the university's mission. Both the Unit and University strive to transmit a cultural experience for our candidates to be transformed into catalysts for learning. Candidates learn to create their own learning from the experiences of the faculty, curricula and field experience opportunities, and other education leaders. Thus, because candidates create their learning outcomes from the interaction with their faculty and curricula, candidates are philosophically constructivists. While the constructivist view is primarily the philosophy by which education programs are structured, content specialists and school personnel programs might have other philosophical basis. The conceptual framework is sufficiently broad as an umbrella to embrace all of the programs. The conceptual framework is the guiding force for program development and performance assessment. The outcome of the framework is the development of unit standards for all programs, which are Diversity, Assessment, Reflection, and Technology (DART).
